The author also sums up what statistics in the developed world show in relation to the efficiency of private health insurance versus a 'public option' and whether it is true that 'taxation stifles the economy.' This statistical annual presents fundamental data comparing measures of (1) Quality of Life, (2) Balance of Power, and (3) Developed Market Economies since 1960. It is far more complete other statistical publications. Members of the U.S. Congress and others who care about the foundations of power politics in the nuclear age will find facts that speak for themselves in this novel yearbook. Are black Greek-letter fraternities among the most dangerous student organizations on American college and university campuses? Can their often-dangerous initiation processes be stopped or even modified and, if not, what should be done about them? In this second edition of *Black Haze*, Ricky L. Jones takes on these questions and more. The first edition was an enlightening and sometimes disturbing examination of American men's quest for acceptance, comfort, reaffirmation, and manhood in a world where their footing is often unstable. In this new edition Jones not only provides masterful philosophical and ethical analyses but he also forces the engagement of a terrifying real world process that damages and kills students with all too frequent regularity. With a revealing new preface and stunning afterword, Jones immerses the reader in an intriguing and dark world marked by hypermasculinity, unapologetic brutality, and sometimes death. He offers a compelling book that ranges well beyond the subject of hazing—one that yields perplexing questions and demands difficult choices as we move forward in addressing issues surrounding fraternities, violent hazing, black men, and American society. Ricky L. Jones is Professor and Chair of the Department of Pan-African Studies at the University of Louisville and the author of *What's Wrong with Obamamania?
