At the first Boy Scout camp held by founder Robert Baden-Powell on Brownsea Island in 1907, the pioneer Boy Scouts were organised into four patrols and presented with a brass fleur-de-lis badge. They were then taught practical outdoor activities, such as knotting, tracking and camping, and tested on these skills. Upon passing the tests, each boy received a bronze badge in the shape of a scroll,

featuring the words “Be Prepared”. The fleur-de-lis badge would later become the Scout’s membership badge, also known as Tenderfoot, while the scroll badge became the Second Class Scout badge. This book compiles various collections of badges over the past century, from Boy Scouts and Wolf Cubs to Rover/Venture Scouts and adult Scouters. It also contains the collections of related accessories such as hat plumes and medals, as well as information about the history of Scouting. Informative and extensive, *A Century of Scouting Badges* is required reading for anyone with an interest in the Scouting movement and its story.

Reader Reviews: “I spent many happy years of my childhood and youth in the scout movement. Scouting taught me good values and how to be a good leader. I thank Meng Hao for this wonderful book on 100 years of scout badges.” — Professor Tommy Koh, Ambassador-At-Large, Ministry of Foreign Affairs “Wan Meng Hao is to be congratulated on achieving a Scouting first for his country that has yet to equalled in our own. He has produced a systematic and comprehensive encyclopaedia of the badges and artefacts relating to Scouting in Singapore over a 100-year period, since its inception in 1907. (He starts with an illustration of a supposed replica of B-P’s brass Brownsea badge). The book is a wonderful compendium of badges and other artefacts beautifully laid out and illustrated in full colour over 200 A4 pages with interesting and relevant text to tell the story. What makes this book of exceptional interest to our UK members is that up to the 1970s the Scout Association of Singapore relied on the UK Association for its badges and medals etc. The book covers all aspects and sections including WW2 and illustrates over 1,000 items, though it makes no claims to be a ‘tick list’. Mr Wan uses his own collection and those of others to depict some very rare items, some of which I have never seen before, to lovingly tell the story of Scouting in his homeland. A wonderful example of what Scout Badge Collecting is all about!” — UK Scout Historian Colin Walker “After reading the first sample of this book, I was very moved! This book introduces Scouting badges, from the beginning of the movement more than one hundred years ago to today. The author introduces almost all the various identification badges carried on the uniforms of the Scout movement. When I look through the book, I can’t help but marvel at the Scout movement. There have been so many creators who have contributed rich treasures to the movement. I have also written books on the history and origins of Scouting, and deeply feel the difficulty of writing such books. I believe the author must have incomparable enthusiasm and loyalty to scouts. He would have needed to verify the many details—such as the year, location, and origins—information that cannot tolerate errors. A lot of data collection and interview work is required. Every time you see such a high-quality Scout information book, you can feel the hardships that the author has gone through. For all Scouting people and even those who just agree with the concept of Scouting, this book is a treasure trove of information that

should not be missed.” — Ho Chung Keung, Hong Kong Scout Leader and writer “Scouting historian Wan Meng Hao’s impressive *A Century of Scouting Badges* is a labour of love, almost two decades in the making. Meng Hao’s encyclopaedic knowledge of and passion for Scouting has resulted in this excellent and invaluable contribution to the very limited literature on the Scouting Movement in Singapore and British Malaya. *A Century of Scouting Badges* weaves in the overarching story of how Scouting has evolved through the years and how the progressive and proficiency badge curriculum enables many scouts to challenge themselves in their Scouting pursuits, to learn useful skills, crafts, and hobbies, to grow in knowledge and understanding of the world around them, to imbibe values and perseverance, and to contribute to their communities in relevant and meaningful ways. The Scouting Movement’s badges and awards, so thoughtfully recorded in this work, reminds us of the importance of striving not for its own sake but as a means of learning by doing and giving for the greater good.” — Associate Professor Eugene Tan, Singapore Management University “This book is the result of Meng Hao’s journey in documenting scout badges. He explains succinctly the historical evolution of badges, and the book is replete with photo-illustration of badges and how some of these badges were worn. It will undoubtedly serve as a handy compendium for scout badges in Singapore.” — Associate Professor Yeo Kang Shua, Singapore University of Technology and Design

Log Book of the Toowong Presbyterian Boy Scouts Association. 2010 Facsimile of 1908 Edition. Robert Baden-Powell was born in 1857 and served in the British Army in India, Afghanistan and, later, West and South Africa. In *Scouting for Boys* he mixed his love for the outdoors, and delight in play-acting, together with the games ethics of the Victorian public school, and processed these into a newly minted tradition, that is, scouting, which became Britain's most successful recreational export of the twentieth century. This book is the foundation document for scouting. Profusely illustrated. In 1899 while serving in the 2nd Boer War, Robert Baden-Powell penned his sixth military book, *Aids To Scouting*. It was a non-typical training manual filled with personal stories of intrigue and even games. Its goal was to encourage the development of light reconnaissance scouting skills within the British Army. The book was well received by various armies of its time, including the French Army. His successful defense of Mafeking (1899-1900) in South Africa made Baden-Powell a well-known national hero in Britain. But what completely surprised Baden-Powell was that his book was eagerly taken up by teachers and youth groups to help organize outdoor activities and sport. He eventually embraced the idea of adapting his work into a new youth-oriented book, *Scouting for Boys* (1908) which went on to sell approx. 150 million copies to date. It was that follow-on book that firmly launched the international Boy Scouts movement. *Aids to Scouting* contains sections on the characters of a scout, as well

as practical advice on observation, stealth/camouflage, map reading, sketching, tracking, reporting and care of horses. It presents these topics in a simple conversational style that makes it easy to read, and is illustrated with personal anecdotes of military adventures by the author. It gives scholars clear insights into his mindset and beliefs that served him well in the siege of Mafeking and shows a clear lineage to the formation of the tenets of his formation of the Boy Scouts. Anyone interested in the history of Boy Scouting will definitely want to read this interesting and formative book. (NOTE - Appendix C contents is missing in this Kindle version - but we hope to update the ebook with it once a suitable facsimile can be referenced). Scouts have been part of the fabric of British society since the Movement's founding by Lieutenant-General Robert Baden-Powell in 1907, and Scout training continues to provide young people with 'instruction in good citizenship' to this day. Beginning with an outline of Baden-Powell's life and influences, Susan Cohen here tells the story of the Scout Movement and its growth from an experimental camp held on Brownsea Island, Dorset, attended by a handful of boys, into a multi-cultural, multi-national movement involving (in 2011) some 400,000 young people (including 60,000 girls) in the UK and millions of others across the world. This blueprint for the Boy Scout movement not only provides energetic tips on camping, tracking, and woodcraft, but offers proper Victorian-era advice on manners, self-discipline, and good citizenship. Includes the original illustrations. *Being Prepared, From Cub Scout to Leader* is the biography of Adrian Coles through his life in Scouting from the first moment he joined Cub Scouts to present day as a Cub Leader about to become Scout Leader. Conceived by General Sir Robert Baden-Powell as a way to reduce class tensions in Edwardian Britain, scouting evolved into an international youth movement. It offered a vision of romantic outdoor life as a cure for disruption caused by industrialization and urbanization. Scouting's global spread was due to its success in attaching itself to institutions of authority. As a result, scouting has become embroiled in controversies in the civil rights struggle in the American South, in nationalist resistance movements in India, and in the contemporary American debate over gay rights. In *Race, Resistance, and the Boy Scout Movement in British Colonial Africa*, Timothy Parsons uses scouting as an analytical tool to explore the tensions in colonial society. Introduced by British officials to strengthen their rule, the movement targeted the students, juvenile delinquents, and urban migrants who threatened the social stability of the regime. Yet Africans themselves used scouting to claim the rights of full imperial citizenship. They invoked the Fourth Scout Law, which declared that a scout was a brother to every other scout, to challenge racial discrimination. Parsons shows that African scouting was both an instrument of colonial authority and a subversive challenge to the legitimacy of the British Empire. His study of African scouting demonstrates the

implications and far-reaching consequences of colonial authority in all its guises. Despite the fact that Scouting has touched the lives of a quarter of a billion boys and girls and their leaders around the world in the past century, its history has been largely ignored. *Scouting Frontiers: Youth and the Scout Movement's First Century* is the first book to discuss the history and principal themes of the Boy Scout and Girl Guide movements on an international scale. Inspired by presentations at the ground-breaking 2008 Johns Hopkins University symposium, "Scouting: A Centennial History," the authors examine the world's greatest youth movement through the diverse experiences of its members and their organizations. From Muslim Scouts in Wales to French Scouts in Syria to Girl Guides in colonial Kenya, Scouting has responded to the challenges of international expansion and transformed itself to address cultural, political and social diversity. *Scouting Frontiers* focuses particularly on the intersections between Scouting's origins and its transformations over the last century as it faced frontiers of nation, empire, religion, race, class, and gender. When orphan Matthew Henson ran away from his violent stepmother to find a new life in the big city, no one could have predicted that he would become the first man to reach the North Pole. A little luck and a lot of hard work led to a life of adventure on the high seas and in the Arctic, but back home in America his achievements were ignored due to the colour of his skin. *Race to the Frozen North* tells his remarkable true story. *Log Book of the Toowong Presbyterian Boy Scouts Association*. It's time to "Be Prepared." The 100th anniversary of Scouting is approaching in 2007, and this authorized history, written by Paul Moynihan, the official Archivist at Scouting's world headquarters, will be in demand throughout the celebrations. An irresistible souvenir for anyone who's ever been a member of the Boy Scouts, Girl Scouts, Cubs, or Brownies, this lavishly illustrated volume is packed with memorabilia—including badges, uniforms, publications, and letters—along with previously unpublished photos of Lord Robert Baden-Powell, the military hero who started Scouting; Brownsea Island, the very first Scout camp and every World Scout Jamboree since 1920. *Scouting in Hong Kong, 1910-2010* covers the "what, how, when, who, why and so what" of the Hong Kong Scout Movement from 1910 to 2010, using a large volume of primary sources. It deals with the development of the youth movement both as a subject of enquiry and as an analytical tool which may shed light upon the broader history of Hong Kong. The author combines professed aim of Scouting (citizenship), the key motives for supporting it (governance, war, secular education and religious conversion) and the most relevant differentiating identities (race, class, gender and age) to analyze the experience of young people involved in Hong Kong Scouting throughout the years, both colonial and post-colonial. The book is richly illustrated with interesting and instructive images and relied heavily on a doctoral dissertation by the author, though they are also significantly different in

both structure and content. It is a critical study aimed at both general readers and readers with more specific interests, and should enrich their understanding of the histories of Scouting, youth, citizenship education, the colonies, the British Empire, decolonization, China and Hong Kong. By reconstructing the evolution of Scouting from a niche movement for a handful of British boys before the First World War to a fully indigenized and co-educational mass movement in the post-colonial Hong Kong society, it fills a gap in the historical studies of youth movements around the world. By analyzing how the movement and the (re)construction of its particular brand of citizenship training reflected the development of the community, it adds to our understanding of the political, cultural and social history of Hong Kong, often influenced by that of China. By demonstrating the uniqueness of its evolution in the colonial context, it provides useful comparative insights into the history of imperialism and colonial youth movements. By exploring the choices made by local Scouting since Hong Kong's retrocession of sovereignty to China, it compliments other studies on decolonization and post-colonial citizenship. The Boy Scouts Association was just seven years old when war broke out in 1914. With its members brought up with a strong ethos of duty and loyalty, it was no surprise that many wanted to play the best role possible in the nation's war effort. Many members were amongst those who rallied to the colors and enlisted in the heady days of the first weeks and months of the war. Some already belonged to either the Reserves or the Territorials and so found themselves immediately thrust into the front lines and casualty rates were high. Several of those who fought were decorated for their service, with a number even

wining the Victoria Cross. On the Home Front, Boy Scouts served as messengers, printers, dispatch riders etc. in the War Office and other government offices, both locally and nationally. Scouts helped gather in the harvest, hunted for spies, aided the civil and military authorities, maintained watch during air raids, helped various wartime charities and sold old bottles to raise funds for recreational huts and ambulances for the front. Others found themselves mounting guard on the coasts and on vulnerable points such as the railway network, or aiding recruitment efforts across the country. The Boy Scout became a trusted and common sight on the streets of the country and the contribution they made was great indeed. In a very comprehensible and entertaining way explores the main findings of the first academic research on world scouting, the largest young movement on the planet. The work revisits scouting's origins, analyzing its structure and recognition policy, its role in developing ideas of global citizenship and belonging, and the spirit of scouting.
