*Confessions of a Wayward Catholic* Jul 20 2022 Confessions of a Wayward Catholic is a hilarious yet insightful account of Frank Scoble's years from kindergarten through grandparenthood as a confused, wayward, seemingly ever-sinning Catholic. Join Frank for a possibly hell-bound ride as he attempts to understand what God and religion are all about. Will Frank reach the pearly gates or be banished to eternal damnation? "I love my husband but there is stuff in this book that is disgraceful and should never have been written!" - Alene Scoble, wife "Francis Scoble has been a major sinner ever since he came to elementary school. I watched him closely at the dances." - Sister Jerome Blake, in charge of making sure girls and boys slow danced a foot apart. "I don't know why Jewish kids went to a Catholic school but I'm proud they did well in religion." - Chief Rabbi Sol Bernstein "I believe that you should love your neighbor as yourself. Luckily, Frank lives in another town and is not my neighbor." - Jesus Christ "Scoble says I have no sense of humor. I will afflict him with boils and sores over his whole body, just like I did Job." - God "Frank Scoble has been wayward for over six decades. He's my main man!" - Satan

**The GMO Deception** Jun 07 2021 Seventy-five percent of processed foods on supermarket shelves—from soda to soup, crackers to condiments—contain genetically engineered ingredients. The long-term effects of these foods on human health and ecology are still unknown, and public concern has been steadily intensifying. This new book from the Council for Responsible Genetics gathers the best, most thought-provoking essays by the leading scientists, science writers, and public health advocates. Collectively, they address such questions as: Are GM foods safe and healthy for us? Will GM food really solve world hunger? Who really controls the power structure of food production? Are GM foods ecologically safe and sustainable? Why is it so difficult to get GM foods labeled in the US? What kinds of regulations and policies should be instituted? How is seed biodiversity, of lack thereof, affecting developing countries? Should animals be genetically modified for food? How are other countries handling GM crops? Ultimately, this definitive book encourages us to think about the social, environmental, and moral ramifications of where this particular branch of biotechnology is taking us, and what we should do about it.

**Large-Scale Victimization as a Potential Source of Terrorist Activities** Oct 23 2022 This publication presents a subject that is, unfortunately, as significant today as it was two years ago. Sadly, this continuing relevance seems to confirm the views of the German radical pacifist Kurt Tucholsky, who stated in response to the atrocities and sufferings of WWI: "But men never ever learnt from history, and they will not do so in the future. Hic Rhodus!" Recent events in Iraq, the Middle East, East Timor or the Democratic Republic of Congo, and possible links regarding issues of terrorism, raise the question what criminological and victimological research offers in assisting to break vicious spirals of ignorance of gross human rights violations and the immense human sufferings in the context of armed conflicts and terrorism. The answer to this question still remains open. Yet, this publication confirms the substantial willingness to 'learn' from the past by critically reviewing large-scale victimisation arising out of protracted conflicts in order to better understanding the necessary prerequisites for enduring peace-making in post-conflict societies and to anticipate and suggest approaches to healing victimising effects.

*A Secondhand Lie* May 18 2022 Sometimes you know things you're not supposed to know. Things that you can never un-know. Things that will change the course of your life...and the fate of the ones you love. I found her in our living room, bleeding and close to death, but alive. Barely. Until morning stole her last breath. The media called her killer the "Triangle Terror" ... and then forgot about her. But I never forgot—my murdered sister, and an investigation that led to my own resurrection from the dead. Twenty-two years ago, on a cold February night, Landon Worthington lost his father for the last time. After an armed robbery gone wrong, evidence and witness testimony pointed a shaky finger at Dan Worthington—deadbeat dad and alcoholic husband. But before the dust could settle over the conviction, Landon's preteen sister, Alexis, is murdered in their home, plunging Landon's life into further despair. Two decades and a cold case later, Landon is dogged by guilt over their estranged relationship and decides to confront his incarcerated father about what really happened the night of the robbery. But the years of lies are hard to unravel. And the biggest question of all haunts him: How does everything tie into his sister's murder? And so begins Landon's journey to piece together the puzzle of secrets, lies, and truths that can free his father, avenge his sister, and perhaps save himself. A short story mystery perfect for fans of Robert Dugoni's *Third Watch* and Dean Koontz's *The Neighbor*. Read as a standalone or as the companion book to *A Secondhand Life*.
