## Washington

In 77 maps and accompanying texts, this atlas presents the history of Washington state from prehistoric times to the present. Beginning with Washington's terrain, climate, vegetation, and hydrography, it then displays and records the evolution of both Indian and white settlements, the development of the state's modern economy, and the progress of society and culture from Indian times to the present. Some of the maps in the atlas cover major historical events or specific periods; others show present-day patterns of activity and deal with the historical background in the accompanying commentary. Selective bibliographies refer readers to further readings on the subject of each map. This book engages with new ways of thinking about boundaries of the early modern Hispanic past, looking at current scholarly techniques. *Early Tantric Medicine* looks at a traditional medical system that flourished over 1,000 years ago in India. The Garuda Tantras had a powerful influence on traditional medicine for snakebite, and some of their practices remain popular to this day. Snakebite may sound like a rare and exotic phenomenon, but in India it is a problem that affects 1.4 million people every year and results in over 45,000 deaths. Michael Slouber offers a close examination of the Garuda Tantras, which were deemed lost until the author himself discovered numerous ancient titles surviving in Sanskrit manuscripts written on fragile palm-leaves. The volume brings to life this rich tradition in which knowledge and faith are harnessed in complex visualizations accompanied by secret mantras to an array of gods and goddesses; this religious system is combined with herbal medicine and a fascinating mix of lore on snakes, astrology, and healing. The book's appendices include an accurate, yet readable translation of ten chapters of the most significant Tantric medical text to be recovered: the *Kriyakalaganottara*. Also included is a critical edition based on the surviving Nepalese manuscripts. Bibliographies, articles, historical and biographical information, brochures, etc., about the collection and the individual pieces comprising it. In the late 19th century, the port of Massawa, in Eritrea on the Red Sea, was a thriving, vibrant, multiethnic commercial hub. *Red Sea Citizens* tells the story of how Massawa rose to prominence as one of Northeast Africa's most important shipping centers. Jonathan Miran reconstructs the social, material, religious, and cultural history of this mercantile community in a period of sweeping change. He shows how Massawa and its citizens benefited from migrations across the Indian Ocean, the Arabian peninsula, Egypt, and the African interior. Miran also notes the changes that took place in Massawa as traders did business and eventually settled. By revealing the dynamic processes at play, this book provides insight into the development of the Horn of Africa that extends beyond borders and boundaries, nations and nationalism. *Phallacies: Historical Intersections of Disability and Masculinity* is a collection of essays that focuses on disabled men who negotiate their masculinity as well as their disability. Essays include war-related disabilities, male hysteria, suicide clubs, mercy killings, and portraits of disabled men in literature and popular culture.

Exhibition catalogue: "Between Wander & Settlement" at Western Washington University Gallery, Bellingham, USA, 2012 Applies critical terrorism studies to fiction by Eliot, Trollope, and others to argue that Victorians ushered in our modern definition of torture as a tool of the state. This book explores U.S. news media's 21st century reckoning with race, from the election of President Barack Obama, through the birth and growth of the Black Lives Matter movement, to the tense weeks after a white police officer killed an unarmed African American teenager in Ferguson, Missouri. While legacy newsrooms struggled to interpret complex events, a diverse group of digital storytellers used emerging technologies. Veteran journalist and media scholar Carolyn Nielsen examines how the first two decades of this century produced new models for journalists to explore the complexity of racism, amplify the voices of lived experience, and understand their audiences. Using critical analysis of news coverage and interviews with reporters who cover racial issues, the book shows how new models of journalism break with legacy journalism's conceptions of objectivity, expertise, and news judgment to provide deeper understanding of systems of power. Phoebe Judson was a young bride in 1853 when she and her husband crossed the plains from Ohio to the Puget Sound area of Washington Territory. She was ninety-five when this book was first published in 1925. The years between were spent in "a pioneer's search for an ideal home" and in living there, when it was finally found at the head of the Nooksack River, almost on the Canadian border. Phoebe Judson's account of the journey west is based on daily diary entries detailing her fear, excitement, and exhaustion. At the end of the trail, the Judsons encountered hardships aplenty, causing them to abandon a farm and business in Olympia before their arrival in the Nooksack Valley. During the Indian Wars they holed up in a fort at Claquato. In time, Phoebe overcame her fear of the Indians, learned the Chinook language, and won their friendship. All this is told in vivid detail by a woman of great dignity and charm whom readers will long remember. Susan Armitage, professor of history at Washington State University, calls *A Pioneer's Search for an Ideal Home* a "classic pioneering account," important for its woman's point of view.
