Regulations "Too many divers and snorkelers pass their time in a daze, swimming blindly from one big object to the next. They miss out on the myriad beautiful and fascinating small creatures that are there on show for anyone who takes the time to look." The marine life of Indonesia is second to none in terms of both the number of species and diversity of forms. There are more species of fish, coral, and more of almost all marine life groups present in Indonesian waters than in any other country. Here is a colorful and scintillating introduction to an astounding array of marine life that will arouse the interest of marine enthusiasts, divers, and snorkelers alike. The guide includes more than 250 magnificent color photographs that explore the wonderful underwater world of the Indonesian archipelago; essential information on the marine life of the Archipelago, from corals to marine reptiles, sea snails to lobsters, bottomhuggers to pufferfishes, starfish to sea slugs; a

comprehensive marine life section that will help readers identify each particular species and its habitat. The first 994 p. are English to Indonesian. Only p. 997-1285 are Indonesian to English.
