She ran away from the truth, but she can't run forever. Seven years after his sister vanished without a trace, Jude is on the road, determined not to return home until he has found her. He wants to reunite his broken family, but more than this he wants to know why Zoe left--what happened when they were kids, on that terrible day when everything fell apart. They'd been enjoying the funfair--grasping a rare moment of happiness following their parents' divorce--when after a ride together, Zoe had stopped speaking to her mother's new partner. Though Mandy believed he was the man she'd waited all her life for, her love for her daughter trumped even that, and soon suspicions of an unthinkable betrayal shattered the family. So finding Zoe would be just the start. If Jude can find her, then what happens next will depend on the story she's been carrying with her all these years. Because when families are destroyed by dark secrets, can the wounds ever truly heal? 14 year-old Jonny has enough to contend with at home, growing up on the Shankill in Belfast, trying to avoid his drunken father and take care of his struggling, penniless mother. This ordinary, football-loving young man has it tough. When he gets caught up in the IRA's Shankill bomb in 1993, however, his life changes forever. His chance to play football for the county is pulled from beneath him. He inadvertently gets embroiled in a world of violence, bombing, guns, murders and the police. A chip pan fire kills his father and Jonny's life constantly teeters on the edge of danger. But there is also plenty of light relief in Jonny's life, too. He is a funny, smart and

hard-working character whose heart is in the right place. His relationship with Karen shows another side to his warm personality, his sneaky antics with the notorious Orange Lil round the back of the bar are hilarious. And when a large bundle of money comes his way, following the untimely death of its owner, he has a spending spree like no other. This rollercoaster of a read is packed with twists and turns, Irish politics, working-class life, unexpected events and demonstrates just how easy it is for an ordinary boy to get involved with the ruthless, gangland mentality of Northern Ireland. AT A SPECIAL LOW PRICE FOR A LIMITED TIME Two girls, three wheels, one mission. What exactly is neoliberalism, and where did it come from? This volume attempts to answer these questions by exploring neoliberalism's origins and growth as a political and economic movement. Now with a new preface. This is a tale of a life few understand today: the human cost of Empire, where families were torn apart - a father seen once every four years - growing up in the Thirties, a time much talked and written about by those who never knew it; a strange Oxford; the war at its most savage against an enemy like no other. And then communicating to a generation that knew not these things the values we had fought for. It is the story of one who found a faith and who after a life longer than most believed others should know about it. Over these years the East followed the author until he said goodbye to it in a special way. A tale of struggle, but of much fun and a humour that lights up its pages. You will discover after reading this book that these years have been worth recalling. It is summer 2001 and Sami Traifi has escaped his fraying marriage and minimal job prospects to visit Damascus. In search of his roots and himself, he instead finds a forgotten uncle in a gloomy back room, and an ugly secret about his beloved father... Returning to London, Sami finds even more to test him as his young wife Muntaha reveals that she is taking up the hijab. Sami embarks on a wilfully ragged journey in the opposite direction, away from religion but towards what? As Sami struggles to understand Muntaha's newly-deepened faith, her brother Ammar's hip hop Islamism and his father-in-law's need to see grandchildren, so his emotional and spiritual unraveling begins to accelerate. And the more he rebels, the closer he comes to betraying those he loves, edging ever-nearer to the brink of losing everything. Set against a powerfully-evoked backdrop of multi-ethnic, multi-faith London, *The Road from Damascus* explores themes as big as love, faith and hope, and as fundamental as our need to believe in something bigger than ourselves, whatever that might be. *The Mark of Death*. After hundreds of years, it has returned to Eberon, and the forces of good and evil want to control it. But one man only wants to get his daughter back alive. To save her, he must walk a perilous path. . . . *The Road to Death*. On Harbour Hill, in the picturesque seaside town of Cobh, Co. Cork, Ireland, where four roads converged together, Jim Hayes's journey of dreams began. Hayes begins by tracing his experiences as boy growing up in Ireland in the late 1940s, where he fished for mackerel at Lynch's Quay, witnessed one of the last human flights to freedom from post war-torn Europe, and played ball in the street. But after his father made the announcement that the family would emigrate to America in

the early 1950s, Hayes details how his life abruptly changed as he attempted to acclimate to a new culture and wondered if he would ever see Harbour Hill again. Years later, his dream of returning home to work and live would come true as he disembarked from the tender in Cobh, began his career, and married the love of his life. As he details his continuing journey from Ireland to America to Germany and back again, it soon becomes evident that Hayes embraced life with a determination to never let anything stand in the way attaining his dreams. *The Road from Harbour Hill* relays the fascinating life story of a man who learned valuable lessons, realized love, and achieved much success through his immersion in three distinct cultures on both sides of the Atlantic. A comforting and uplifting picture book from bestselling poet and activist Cleo Wade. Which way do I go? That is your choice to make, said the Road. But what if I go the wrong way? The Road curved a little, almost as if it was giving me a hug, and said, Do not worry. Sometimes we go the wrong way on our way to the right way. It's okay to be afraid or to sometimes wander down the wrong path. Beloved poet Cleo Wade's *What the Road Said* features illustrations by Lucie de Moyencourt and encourages us to lead with kindness and curiosity, remembering that the most important thing we can do in life is to keep going. Explores how cultural conceptions of mobility and the road contribute to identity and culture in early modern Britain. Opens new windows on early modern culture, subjectivity and perceptions around the experience of the road and how that shapes the idea of the road itself. Offers insight into the ways both the bare boards of the stage and prose narratives were used to imagine road journeys and the intersections between public and private space. Enhances historical understanding of the literal place of theatre in the road networks around early modern London. Provides a crucial ligature in English literary and cultural history. The present plays and prose are prolegomena to the travel literature of Montagu, Swift, Boswell and Johnson in the Hebrides, Sterne's *Sentimental Journey*, Fielding's *Tom Jones*, and peripatetic Civil War narratives. This book brings together thirteen essays, by both established and emerging scholars, which examine the most influential meanings of roads in early modern literature and culture. Chapters develop our understanding of the place of the road in the early modern imagination and open various windows on a geography which may by its nature seem passing or trivial but is in fact central to all conceptions of movement. They also shed new light on perhaps the most astonishing achievement of early modern plays: their use of one small, bare space to suggest an amazing variety of physical and potentially metaphysical locations. *The Road from the Past* is a unique new way of looking at France, looking at history, and looking at travel. In it, Ina Caro takes us on an unforgettable tour of France, traveling north through its beautiful regions and chronologically through its colorful history. We start in Provence, where the Roman Empire held sway, and then go to Languedoc to visit the sites that marked the Age of Faith following the Empire's fall. Next is the Dordogne, where we experience the feudal Middle Ages, from Charlemagne and the Age of Chivalry to the life of Joan of Arc. Continuing north, we come to the chateau-studded Loire

Valley, "the Valley of Kings," where monarchs and nobles, as well as their charming mistresses, plotted for wealth and power. Finally, we reach the Île-de-France, surrounding Paris, where Louis XIV solidified his autocratic and imperialistic reign—as did Napoleon a century later. With Ina Caro as an epicurean, knowledgeable, and delightfully opinionated guide, we can always be sure to find the most breathtaking vistas, the most extraordinary châteaux, the most inspiring cathedrals, the best meals. *The Road from the Past* takes us to where history unfolds—and then to a favorite spot for a picnic or a five-course dinner. The 18th century was a wealth of knowledge, exploration and rapidly growing technology and expanding record-keeping made possible by advances in the printing press. In its determination to preserve the century of revolution, Gale initiated a revolution of its own: digitization of epic proportions to preserve these invaluable works in the largest archive of its kind. Now for the first time these high-quality digital copies of original 18th century manuscripts are available in print, making them highly accessible to libraries, undergraduate students, and independent scholars. This collection reveals the history of English common law and Empire law in a vastly changing world of British expansion. Dominating the legal field is the *Commentaries of the Law of England* by Sir William Blackstone, which first appeared in 1765. Reference works such as almanacs and catalogues continue to educate us by revealing the day-to-day workings of society. ++++ The below data was compiled from various identification fields in the bibliographic record of this title. Have you ever heard the march of legions on a lonely country road? For two thousand years, the roads the Romans built have determined the flow of ideas and folktales, where battles were fought and where pilgrims trod. Almost everyone in Britain lives close to a Roman road, if only we knew where to look. WINNER: NATIONAL GEOGRAPHIC TRAVELLER READER AWARD FOR BEST TRAVEL BOOK OF THE YEAR 2016 WINNER: BOOKS ARE MY BAG READER AWARD FOR BEST AUTOBIOGRAPHY OR BIOGRAPHY 2016 Twenty years ago, Bill Bryson went on a trip around Britain to celebrate the green and kindly island that had become his adopted country. The hilarious book that resulted, *Notes from a Small Island*, was taken to the nation's heart and became the bestselling travel book ever, and was also voted in a BBC poll the book that best represents Britain. Now, to mark the twentieth anniversary of that modern classic, Bryson makes a brand-new journey round Britain to see what has changed. Following (but not too closely) a route he dubs the Bryson Line, from Bognor Regis to Cape Wrath, by way of places that many people never get to at all, Bryson sets out to rediscover the

wondrously beautiful, magnificently eccentric, endearingly unique country that he thought he knew but doesn't altogether recognize any more. Yet, despite Britain's occasional failings and more or less eternal bewilderments, Bill Bryson is still pleased to call our rainy island home. And not just because of the cream teas, a noble history, and an extra day off at Christmas. Once again, with his matchless homing instinct for the funniest and quirkiest, his unerring eye for the idiotic, the endearing, the ridiculous and the scandalous, Bryson gives us an acute and perceptive insight into all that is best and worst about Britain today. Two exes reach a new level of awkward when forced to take a road trip together in this endearing and humorous novel by the author of the international bestseller *The Flatshare*. What if the end of the road is just the beginning? Four years ago, Dylan and Addie fell in love under the Provence sun. Wealthy Oxford student Dylan was staying at his friend Cherry's enormous French villa; wild child Addie was spending her summer as the on-site caretaker. Two years ago, their relationship officially ended. They haven't spoken since. Today, Dylan's and Addie's lives collide again. It's the day before Cherry's wedding, and Addie and Dylan crash cars at the start of the journey there. The car Dylan was driving is wrecked, and the wedding is in rural Scotland—he'll never get there on time by public transport. So, along with Dylan's best friend, Addie's sister, and a random guy on Facebook who needed a ride, they squeeze into a space-challenged Mini and set off across Britain. Cramped into the same space, Dylan and Addie are forced to confront the choices they made that tore them apart—and ask themselves whether that final decision was the right one after all. 'Everything you would expect of a James Naughtie book - droll, absorbing and wonderfully perceptive.' Bill Bryson 'A revealing and at times spellbinding tapestry of a nation...It is thought-provoking, constantly surprising and hugely entertaining. Sublime stuff.' Michael Simkins, Mail on Sunday 'An insightful account of living through momentous times...much to enjoy in Naughtie's astute memoir.' Martin Chilton, Independent James Naughtie, the acclaimed author and BBC broadcaster, now brings his unique and inquisitive eye to the country that has fascinated him and drawn him across the Atlantic for half a century. In looking at America, from Presidents Nixon through to Biden, he tells the story of a country that is grappling with a dream. What has it come to mean in the new century, and who do Americans now think they are? Drawing on his travels and encounters over forty years in the 'Land of the Free', *On The Road* is filled with anecdotes, memories, tears and laughter reflecting Naughtie's characteristic warmth and enthusiasm in encountering the America of Washington, of Broadway, of the small town and the plains. As a student, Naughtie watched the fall of President Richard Nixon in 1974, and subsequently as a journalist followed the story of the country - its politicians, artists, wheeler-dealers and the people who make it what it is, in the New York melting pot or the western deserts. This is a story filled with encounters, for example with the people he has watched on every presidential campaign from the late 1970s to the victory of Joe Biden in 2020. This edition is fully updated to include Naughtie's fascinating insights on the controversial presidential election battle in 2020

between Donald Trump and Joe Biden. Press the buttons and beep, honk, vroom with 10 different vehicles! The post-apocalyptic modern classic with an introduction by novelist John Banville. In a burned-out America, a father and his young son walk under a darkened sky, heading slowly for the coast. They have no idea what, if anything, awaits them there. The landscape is destroyed, nothing moves save the ash on the wind and cruel, lawless men stalk the roadside, lying in wait. Attempting to survive in this brave new world, the young boy and his protector have nothing but a pistol to defend themselves. They must keep walking. Winner of the Pulitzer Prize for Fiction, *The Road* is an incandescent novel, the story of a remarkable and profoundly moving journey. In this unflinching study of the best and worst of humankind, Cormac McCarthy boldly divines a future without hope, but one in which, miraculously, this young family finds tenderness. An exemplar of post-apocalyptic writing, *The Road* is a true modern classic, a masterful, moving and increasingly prescient novel. This edition is part of the Picador Collection, a series of the best in contemporary literature, inaugurated in Picador's 50th Anniversary year. Laura Ingalls and Almanzo Wilder lived in the Missouri Ozarks for over a half century. They loved the scenery, the mild climate, their little Rocky Ridge Farm, the people - They loved their life in the Ozarks. So what's it like to live a life like that, just up the road from Laura's place? Dan L. White and family have done that, for over a quarter century. During that time, they wrote a number of books about Laura and her books and her life. *Living Up the Road from Laura Ingalls - With Excerpts from Seven Books about Her* is a sampler of some of those books, along with the story of their personal life in the Ozarks. They found out that living up the way from Laura's place led to much the same way of life. As she so well stated: "I believe we would be happier to have a personal revolution in our individual lives and go back to simpler living and more direct thinking. It is the simple things of life that make living worthwhile, the sweet fundamental things such as love and duty, work and rest and living close to nature." I went out to the garage, and there I found him with the motor still running, fumes galore, and his dead body at the wheel. I immediately opened the garage door and looked into his face. My response was, He's at peace. He's whole. There is no more war going on in his mind. He looked so peaceful. It just stood to remind me of how much restraint he must have used as he was here on this earth.
