Intimate Lies and the Law Feb 15 2020 This is the first book that systematically examines deception in sexual, marital, and familial relationships and uncovers the hidden body of law that shields intimate deceivers from legal consequences. It argues that entering an intimate relationship-or being duped into one-should not mean losing the law's protection from deceit.

The Canadianization Movement Apr 30 2021 In The Canadianization Movement, Jeffrey Cormier examines the 'Canadianization' of the Canadian intellectual and cultural communities from the 1960s to the 1980s. The author documents the efforts of cultural nationalists as they struggled to build a strong, vibrant Canadian cultural community. Cormier asks four questions to guide his analysis. First, why did the Canadianization movement emerge when it did? Second, how did the movement transform itself for long-term survival? Third, what kinds of mobilizing structures did the movement make use of, and what influence did these structures have on the movement's activities? And finally, how did the movement maintain itself in times when the political and media climate was unsupportive? Using data collected from archival sources as well as twenty-two in-depth interviews with participants, Cormier documents the actions that organizational intellectuals took in pushing for social and cultural change, an aspect of social movements literature that, until now, has largely been only theorized about.

Resilient Gods Mar 10 2022 Are Canadians becoming less religious? After playing a central role in our lives for nearly a century, religion did seem to be losing its salience. But there is more to the story. Resilient Gods takes an in-depth look at the religious landscape today. The picture that emerges is not one of religious decline but rather of polarization, with the numbers of “ pro- ” “ no, ” and “ low ” religious in flux. Using the most current information available, Bibby explores the implications of religious choices for personal and social well-being, spirituality, and attitudes towards death. The questions he asks are compelling and the answers thought-provoking whether one embraces the gods or not.

Canadian Sociologists in the First Person Jan 28 2021 Social scientists' autobiographies can yield insight into personal commitments to research agendas and the very project of social science itself. But despite the long history of life writing, sociologists have tended to view the practice with skepticism. Canadian Sociologists in the First Person is the first book to survey the Canadian sociological imagination through personal recollections. Exploring the lives and experiences of twenty contributors from across the country, this book connects the unique and shared features of their careers to broad social dynamics while providing a guide to their own research and administrative contributions to their universities, their profession, and their broader society and communities. The contributors teach in different types of institutions, are prominent in the discipline and in their specializations, and represent significant and diverse intellectual currents, political perspectives, and life and career experiences. Aiming to start a broad conversation about what social science and the academic profession look like in Canada from an insider's perspective, Canadian Sociologists in the First Person offers invaluable lessons for younger scholars as they envision a diverse sociological imagination for

the twenty-first century.

The Dream of East Asia Nov 25 2020 What do we talk about when we talk about East Asia? We are worried about China's emergence as an economic giant and military power that may upset the regional and, indeed, the global status quo. Much more mercurial, however, and therefore more frightening, is that riddle wrapped in a mystery inside an enigma known as North Korea, with its alternate launching of rhetorical fusillades and long-range missiles. And what has happened to Japan, that once mighty economic engine now reduced to a source of bleak news about stagnation and malaise? Then there is South Korea, manufacturer of such technologically advanced products as smartphones, and lately a generator of transnational fads ranging from snail cream to K-pop. Going beyond these standard scripts, *The Dream of East Asia* presents a framework for understanding contemporary Northeast Asia, focusing on the countries that comprise our conventional understanding of what we call East Asia--namely, China, Taiwan, Japan, and the two Koreas. In so doing, John Lie illuminates regional economic, political, and cultural dynamics.

From Culture to Power Oct 17 2022 Twenty-five years ago the cultural values of Canadians were believed to be largely responsible for the country's patterns of economic development, politics, and inequality. Today, these patterns are explained in terms of the way power is distributed. In this study, Brym and Fox attribute the shift in viewpoint to the growing influence of various currents of Marxism and feminism in Canadian sociology. In light of these trends, they analyze the Marxist critique of conventional sociology in the 1970s and the feminist critique of Marxist sociology in the 1980s.

Sociology: Pop Culture to Social Structure Aug 15 2022 More than ever before, this book makes sociology relevant by applying sociological concepts and theories in a fun, hip way, using pop culture as the vehicle for relating to students. The new title, SOCIOLOGY: POP CULTURE TO SOCIAL STRUCTURE, underscores this approach by reflecting the book's stronger trio of themes, which 1) use pop culture to apply sociological concepts to everyday phenomena, 2) illustrate how technological change drives social change through examples that are familiar to students, and 3) engage students in thinking critically by asking them where they fit in to

the larger context of social patterns in the world, and challenging them to apply sociological ideas when thinking about governmental or institutional policies. Streamlined by 15 percent in this edition, the text teaches students how to think sociologically, not just what to think, and emphasizes the importance of diversity and a global perspective. Movie reviews in the popular Sociology at the Movies boxes explore the sociological messages in recent movies such as *The Social Network*, *Avatar*, *Milk*, and many others. Up-to-date discussions of topics such as race, poverty, and religious practices are accompanied by exploration of contemporary issues related to our increasingly digital world, including examinations of how technological change shortens attention span, the Internet as an atomizing and a community-building force, and electronic surveillance and social control. Clear Thinking in a Blurry World Dec 27 2020 A ground-up Canadian text, *Clear Thinking in a Blurry World* offers a new way of examining the discipline of critical thinking. This text focuses on critical thinking as it applies to philosophy and cognition, rather than the typical 'formal logic lite' approach. *Clear Thinking in a Blurry World* includes many practical sections that are not commonly found in books in this market—material on numeracy and statistical analysis. Through this text, students will examine sources of information—from social exchanges, to science, to mainstream media—in detail, as well as the cognitive and social psychology of biases. This text aims directly at teaching, or beginning to teach, a broad set of knowledge, skills, and habits properly called critical reasoning faculties. Students using this text will enhance their ability to: -recognize and classify reliable and unreliable forms of reasoning -understand reasoning about evidence, including some central concepts of statistics and probability -anticipate the cognitive and social factors that make us susceptible to particular reasoning errors -critically examine science—and popular conceptions of science—in relation to the problem of how to believe reasonable things -examine the media and other main sources of information about the world to see how they might be unreliable, and under what circumstances

Learning to Leave Jul 22 2020 Published with a new preface, this innovative case study from Nova Scotia analyzes the relationship between

rural communities and contemporary education. Rather than supporting place-sensitive curricula and establishing networks within community populations, the rural school has too often stood apart from local life, with the generally unintended consequence that many educationally successful rural youth come to see their communities and lifestyles as places to be left behind. They face what Michael Corbett calls a mobility imperative, which, he shows, has been central to contemporary schooling. Learning to Leave argues that if education is to be democratic and serve the purpose of economic, social, and cultural development, then it must adapt and respond to the specificity of its locale, the knowledge practices of the people, and the needs of those who struggle to remain in challenged rural places.

The Invisible Hand of Power Aug 23 2020 This is an innovative study of the techniques of domination, based on financial markets, judicial systems, academia and international relations, across North America and post-Soviet Russia. The Sociological Quest Apr 18 2020 Starting Sociology can be daunting. This user-friendly introduction takes the reader on a quest towards a sociological understanding of the world we live in. Using contemporary examples, The Sociological Quest asks what is distinctive about the way Sociologists view society. Haydn Aarons and Evan Willis show that they are concerned with the relationships between the individual and society, and that a sociological analysis involves an approach which is historical, cultural, structural, and critical. This sixth edition has been thoroughly revised and updated and includes new material on identities, social change, social movements, populism, climate change, the COVID-19 pandemic, digital interaction, and social media. Also included in the sixth edition is an expanded chapter on empirical research in Sociology and the research process, as well as a new chapter on careers in Sociology.

The Ever-Dying People? May 12 2022 Demise by assimilation or antisemitism is often held to be the inevitable future of Jews in Canada and other diaspora countries. The Ever-Dying People? shows that the Jewish diaspora, while often held to be in decline, is influenced by a range of identifiable sociological and historical forces, some of which breathe life into Jewish communities, including Canada ' s. Bringing together leading Canadian and international scholars, The Ever-Dying People? provides a

landmark report on Canadian Jewry based on recent surveys, censuses, and other contemporary data sources from Canada and around the world. This collection compares Canada's Jews with other Canadian ethnic and religious groups and with Jewish communities in other diaspora countries, including the United States, the United Kingdom, France, and Australia. It also sheds light on social divisions within Canadian Jewry: across cities, sub-ethnic groups, denominations, genders, economic strata, and political orientations. These bases of comparison usefully explain variation in a wide range of sociological phenomena, including ethnic identity, religiosity, acculturation, intermarriage, discrimination, economic achievement, and educational attainment.

Sociology Feb 26 2021 This balanced, mainstream, totally up-to-date text is characterized by its focus on the connection between oneself and the social world. It teaches students "how" to think, rather than just "what" to think, draws the connection between objectivity and subjectivity in sociological research, and places an emphasis on the importance of diversity and the global perspective. Students have to navigate a world that is increasingly complex and confusing. SOCIOLOGY: YOUR COMPASS FOR A NEW WORLD will help them do just that. Bob Brym and John Lie wrote this book to show undergraduate students that sociology can help them make sense of their lives, however uncertain they may appear to be. By revealing the opportunities and constraints students face, the book helps them know themselves and see what they can become in this particular social and historical context.

What Lies Ahead? Canada's Engagement with the Middle East Peace Process and the Palestinians Dec 07 2021 This edited volume explores Canada's foreign policy relationship with the Palestinians and broader Middle East Peace Process (MEPP). Canada was intensively involved from 1992 to 2000 in peacebuilding as a mediator in the multilateral part of the MEPP, as chair of the Refugee Working Group, and sponsor of Track II negotiations. This all changed after a significant mid-2000s discursive and

policy shift when Canada withdrew from the politics of Israel-Palestine peacebuilding and took a strong partisan stance in favour of Israel. Through 10 chapters by current and former government insiders and academics with extensive field experience, this unique edited volume offers insight into decades of evolution in Canadian policy toward the Palestinians, MEPP and the Middle East. It arrives at an important time when the international community is reconsidering how it views Israel ' s entrenched occupation of the Palestinians, after three failed decades of United States-led efforts to find peace through a negotiated two-state model. Today, peace may never have appeared further away after the Trump Administration adopted policies directly contradictory to the MEPP. This proved a test to Canada ' s own official policy toward Israel and Palestine, its longest running and most important region of engagement in the Middle East. The chapters were originally published as a special issue of the Canadian Foreign Policy Journal, guest edited by Jeremy Wildeman and Emma Swan.

Good Government? Good Citizens? Nov 13 2019 Examining the altered roles of courts, politics, and markets over the last two decades, this book explores the evolving concept of the citizen in Canada at the beginning of this century.
